

Quality Improvement Impact

Be Well Lake County

Aim: To improve diabetes management through improved coordination of care and patient self-management.

Results:

Improvement in Key Outcomes from Visit 1 to Visit 4*

Patients' control of diabetes improved!

From Visit 1 to Visit 4 patients had:

- Decreased HbA1C
- Decreased LDL
- Decreased microalbumin
- Increase in weekly exercise

Increased Use of Preventive Measures from Visit 1 To Visit 4*

The increase in medication use is necessary to prevent or delay complications in patients with diabetes!

*The time period between Visit 1 to Visit 4 is approximately 12 months for most patients.

Impact:

Diabetic patients in the Do Well program have better

diabetic patients in the be well program have better control of their diabetes and lower risk of complications.

"Be Well – Lake County" is a partnership of NorthShore University HealthSystem and the Lake County Health Department and Community Health Center.
